RENEWAL® HGH

TESTIMONIALS

"It's given me energy, improved memory, stamina, endurance... kept weight off and controlled my appetite. It's helped me a lot!"

"I have used your product and would recommend it to anyone who is serious about either weight loss, rejuvenating the system or muscle tone. I highly believe that it is the reason I have been able to take off 93 pounds in 7 months and look younger than my 40 years have given me. It has wonderful benefits and absolutely no side effects, other than looking and feeling better than I ever have!"

"About two years ago I found that I was slowly losing all my sexual drive. Then last year I heard of Renewal GH. After taking it for two months, all my vigor returned and I could once more perform as if I was 30 years old. I am 72 years young and acting as if I was 30 years old, thanks to Renewal HGH. This is a wonderful product which I can unhesitatingly recommend."

"As a healthcare professional I wanted to share my experience of your product Renewal HGH Advanced. I have used 4 other HGH sprays and have found your product to be superior both in taste and performance. I am a fifty year old female going through 'the change' (menopause). Approximately seven weeks ago I began having 10 to 12 hot flashes during the night and missed my first menses in 40 years. I began the HGH Advanced as directed, three days later my hot flashes ceased and one week later my menses returned.

I am sleeping again and my energy levels are perfect. Six days ago while on vacation My bottle was empty, 3 days later the hot flashes returned, 2 days ago I started the spray again and last night was again free from hot flashes. THANK YOU!

"I have always been a healthy guy, strong and never really had any health problems until November 2000. I had some minor surgery that turned into a nightmare. It wouldn't heal right. Five surgeries later I didn't think I would ever heal. At that point. I heard about HGH and started taking Renewal HGH Advanced about three months before my sixth surgery, in June 2003. That surgery went great, and now I'm a lot healthier. And people still say I don't look 50. I want to keep it that way. Thank you, Always Young, Renewal has really helped me."

"I live in the Netherlands, and live a very hectic life as a TV director. My hobby is bodybuilding. I've been doing it now for 12 years and I've grown from a skinny 80 kilos with 192 cm to 100 kilos. Right now I am 40 years of age.

But I always had problems with taking all kinds of supplements because they really made me more fat than muscular, especially around the abs. In September 2003 I started to use Renewal Workout for Men HGH three times a day. And wow, did it make a difference! Apart from the fact that it gave me much more energy to go to the gym 5-6 times a week I also noticed after about 2 months a big increase in muscle tissue and vascularity of the muscle.

Right now I'm about 103 kilos (226 lbs.) but I don't feel that fat around my stomach anymore. My abs are harder and more visual. My whole body is, feels and looks much harder than before! Furthermore my strength has increased; I can pump more iron now, which is also a good stimulant to keep on training and to go on taking HGH.

Before I took Renewal my partner was complaining because I was too tired or I just didn't feel like having sex (especially after the gym). Since I have been taking HGH this has changed completely. I can have sex more often simply because I have the energy and I feel more like it.

For me there is no doubt. Renewal really works."
